Sarah W Hunt

Commanded by

Captain S Miner

Seal Voyage of the Sarah W Hunt.

Campbell Harbor the 22 of Novbr 1883

This day, filld part of our fresh water Casks, and had all our Clothes washed. P. at. to.

Friday 23 of Novbr.

This day, filld the rest of our water Casks, took 3 Bags of Flour out, and stowed sum of the Casks over, and had to let go the second Anchor, blowing very hard from the N.W. P. at. to.

Saturday 24 of Novbr

This day blowing very hard from the S.W. Crew employed in ships work. P. at. to.

Sunday 25 of Novbr.

This day light wind from the W. kept Sunday in the afternoon Captain Miner went with his boat on shore. P. at. to.

Monday 26 of Novbr

This day light wind from the N. in the morning, set boats out, and scrub the vessel round, after that heisted Fore and Mainsail and Topsails to dry. in the afternoon Captain me and second Mate was menden sails, sah a Seal long side the vessel, in the evening, I went with my boat to look for him, sah him and shot him, but sunk lik a stone. after waiten till 9. P.M. went on board, heisted boat in and sat ended this day. Pump attendet to

Thursday 27 of Novbr.

J. W. Sarah W. Hunt

Campbell Island
Perseverance Harbour
27 November 1883.

At or about 6 Am. on the morning of the above date, while lying at anchor, the Port and Starboard boats, left the vessel with orders to search in shore for seals, a light breeze then blowing from the N.E. the port boat being in charge of the first Mate and 5 Seamen and Starboard of Second Mate and 5 Seamen taking no provisions, but with the intention of returning to the vessel for dinner or shortly afterwards, leaving the Steward on board and Captain in charge of vessel. During the day no anxiety of fear was felt for their safety although the weather became more squally towards afternoon and a succession heavy squalls came down during the night - but about between 2 & 3 o'clock Am. on the 28th their being full of Creeper & snails around the island it was naturally supposed ^{that} they had put into ~~to~~ one of them to wait till morning when they could have made for the vessel where they could have arrived during the day.

28th Not having returned by noon of the second day great anxiety was felt for their safety, and preparation was made to go in search of them, but being only two men on board it was difficult and exceedingly dangerous to undertake anything, the vessel at anchor with both Anchors down with 38 fathoms of Cable on one and 20 on the other and laying in 10 fathoms of water with the wind dead on a lee shore, but still we concluded to make the attempt and in the evening reefed the foresail and made every thing ready to start at break of day.

29 November 1883

Very Anxious all night about the crew no tidings yet. At 2 Am this morning thick fog with rain and late blowing very strong breeze with thick fog & rain making it impossible to attempt to get under weigh with any chance of safety and have only to remain in suspense and wait; The Captain went aloft and fitted new sheaves into the blocks and had every thing in readiness.

to get under weigh as soon as it moderates
The ~~log book~~ being in charge of the 1st mate
and by him locked away. This method of inserting
the facts was resorted to.

At 5 P.M. it commenced to moderate
a bit. Hove in Starboard Anchor 7 P.M.
Commenced to breeze up again. and by 9 P.M.
blowing a gale, with tremendous and very heavy
sudden squalls until about 12 Midnight, and the
squalls did not appear to have as much force.
Went below at 11:45 P.M.

Friday 3rd November 1873

Twelve O'Clock Am. Very moderate but a very thick
fog with rain. Give up all hopes of our coming
and can do nothing more than wait a while
to get under weigh to look for signs of them.

8 P.M. Blowing a fierce gale with
severe sudden squalls.

5 O'Clock Am. Very Moderate with a light
breeze from the westward. Commenced to get
under weigh, Hove short, and got our anchor,
Set Foresail by means of tackles, and set
fore stay sail, and afterwards set the
Mainsail to get her clear of the head land.

9 Am. Clear of Harbour, Double Reefed
Mainsail & set it, and cleared the decks up.
Calm during the remainder of the day. Course N by E
12 Midnight up to this hour no wind, have
not seen no sign of boats or men. Give up
all hope of ever hearing of them.

Lat 52.10 Long 16.25 Saturday 1st December 1873
This day begins with calm weather, and in sight
of land. 12 Noon, light breeze from Westward
The breeze continued during the remainder of day.

Lat 50.51 Long 19.31 Sunday 2nd Dec^r 1873
Nothing doing at present, yet making the best

efforts we can to gain a port. This day begins with
breeze veering to N.W. At 4 Am. and
Flying Jib. Breeze continuing to increase during
the day and at 7 P.M. Strong Breeze, took in
flying jib. Breeze increasing to Moderate Gale by
8 P.M. and continued to the end of this day.

Monday 3rd December 1883
This day commences with a Moderate Gale from
the N.W. with occasional rain. 12 Noon Breeze
moderating and veered to N.W. with heavy head
sea. And continued, thus ending this day.

Lat 49.51
Long 172.19 Tuesday 4th Decr 1883
This day commences with squally weather from the
N.W. with occasional rain & hail: 12 Noon. Strong
Breeze fine clear weather with occasional sunshine.
7.30 P.M. tacked ship. 12 O'c Midnight tacked ship
the Breeze hauling more to the westward.

Lat 47.42 Wednesday 5 December 1883.
Long 172.22 This day begins with squally weather and occasional
rain. still head wind with more signs of change.
4 p.m. Breeze hauled to the Westward and blowing
strong continuing during the night.
Thursday 6 Decr 1883

Lat 46.16 This day begins with a strong gale
Long 171.41 from the Westward. continuing during the day
with terrific squalls, at 3 p.m. this day hauled
down Jib. there being a very heavy sea running.
5 p.m. moderating a little. 12 Midnight wore
ship still equally and strong Breeze

Lat 44.38 Friday 7 Decr 1883
Long 171.33 1/2 This day begins with a strong S.W. Breeze
At 3 Am. wore ship and at 4 Am. sighted
land right ahead: to leeward of C. Saunders
at 10 Am. Squared away to the Northward
4 P.M. Fine sunshine weather. Steaming N.N.
for a Harbour and continued fine during the
remainder of the day & night.

Saturday 8 Dec. 1843

This day begins with nice clear weather with a light breeze from the South. 5 Am. Set-
Hying Lib. and took reef out of Foresail and
Mainsail and Set Fore Gaff Topsail. -

25

E N E Dist 15

3 pm Tacked to the southward

Evening making several

short tacks under "Hamp"

Island, daylight fine weather

noon Com to Anchor in

12 fathoms of water, & sandy

bottom, in Port "Loa" Harbour,

hauled sails & set the Boat out

& cruised around the Island

evening com back to vessel, weather fine
& Clear this day Log 36 hours to start
the harbour Log = Pumps Lights &
a good Lookout at all times attended

Reemars: Friday - August 15th 1884,

Lay in Port "Loa" Harbour, =

This day fine weather though the
day wind South & Clear,

This day Crew employed scrubbing
ship outside & overhauling stores,

Lights & Lookout attended,

Saturday August 16th, 1884

Laying in "Port-Loa" Harbour

A.M. Fine weather & Cloudy

The wind E.S.E. P.M. set in

with rain. Boat on shore

Cast muskets & seen two huts,

rain continue.

Lights & Lookout attended,

Remarks Sunday August 17-1884
 Am moderate breeze &
 Cloudy wind E.N.E. 9 am hove
 up anchor & shifted in to
 the narrow part of the West
 Channel, for to beach the vessel
 & overhaul her "Copper";
 P.M. Strong breeze & rain
 continued through the day,
 Lookout attended,

Monday August 18th 84

A.M. Fine weather & Clear. 6 am.
 hauled the vessel on the beach &
 overhauled her Copper & scrubbed her
 at low water, p.m. Showery wind
 East, 10 pm hove the vessel up
 to her ^{own} Chock, Lookout attended.

Tuesday August 19th 84

A.M. Fine & Clear. 10 am hove the
 vessel in to the beach & overhauled
 the Starboard side, water faling
 8 feet = spring tides, P.M. rain & a light
 breeze from the N.E. getting plenty of
 "Clams" & oysters" a long side the vessel
 9 pm vessel laying over on the beach,

Wednesday August 20th - 1884.

Am Fine weather & Clear light
 breeze from E.N.E. 10 am high water
 hove the vessel off the beach &
 anchored in West Channel in
 3 1/2 fathoms sandy bottom,
 Midday heavy hail squalls, fine
 weather Crew on shore washing
 their clothes, Lookout attended to,

Log of "Sarah W. Hunt" in "Port Low"
Remarks, Thursday, August 21st = 1884,

Am Blowing hard from N.W. with
heavy rain. pm weather clearing up
wind west, crew variously employed
Lookout attended,

Friday August 22nd 84 in "Port Low"

Am. Wind N.W. & Cloudy,
pm Squally wind west 3pm heavy hail
squalls. The remainder part of the day
heavy rain & blowing hard,
Lookout attended,

Saturday, August 23rd 84.

Am Blowing hard from the westward
& heavy rain, noon fine weather.
Pm Squally weather continues through
the day. Lookout attended,

Sunday August 24th 84,

Am Blowing hard from the westward
pm. Squally at times. so ends this day
Lookout at all times attended,

Monday August 25th 84,

Am Blowing hard from N.W.
& squally. pm set in with heavy
rain & hail squalls at times
so ends this day, Seen a "hair"
"Bul." & fired three shots but
not successful in getting him,
an "Other" is also seen the day,
Lookout attended,

Remarks. Tuesday, August 26th 84. "But Low"

Am. Wind N.W. & heavy seal squalls,
noon wind decreasing half of the crew
on shore cutting fire wood.
Evening wind S.W. & fine weather,

Wednesday August 27th 84,

Am. Moderate breeze & rain.
8 am Boat went off for a sealing
Cruise around some of the island.
2 pm returned & got one "hair
- Seal". P.M. Strong breeze & heavy
rain, wind west through this day,
Lookout at all times attended,

Thursday August 28th 84

Am. Wind NE with some rain
Crew employed cutting fire wood
& cleaning ship. 1 pm weather
the same, pumps Lookout attended,

Friday August 29th 84,

Am. Wind NE & heavy rain,
Crew employed filling water,
pm. weather the same continually heavy
rain through this day, & a strong breeze,
Lookout attended,

Saturday August 30th 84,

Am wind East sky heavy overcast
7 am boat went off for a cruise
got two seals, noon returned
P.M. wind increasing & set in with
heavy rain from the North,
this day captain where in the Boat,

Sunday August 31st Laying in -
"Port Louis" west Harbour,

A.M. Wind west with heavy rain.
noon weather clearing up,
pm Strong breeze with passing clouds at times
Lookout attended,

Monday September the 1st 84.

Am Weather squally I am hove up
anchor to sail the vessel through
the channel could not on account
of the current setting too strong to
the westward, noon tide slacken
proceeded to sea pm wind N.W.
& showery 2 pm making a cup of
tea & then stood on to the
Southward & Westward crew clearing
up decks & Lashing Anchors,
so ends this day, Lookout attended,

7 pm light breeze from the norreth, with continually rain, Lookout attended,

Oct 10th Friday

A.M. Moderate breeze from N.W.

Daylight light breeze from N.N.W. with light showers of rain, 6³⁰ am boat started

for the seal rock, When halfway to the rock the crew refuse to pull out,

When asked why they would not go, the answer, it is too long a distance, & too much sea, & we could not get any seal to pay them,

Capt I S Mainer report,

10 am Boat returned, The mate reported that the crew refused to go off to the rock, Called all hands asked them why they refused to go to the rock,

"George Allen" acted as spokesman, said the wind was off the land, and too high sea, and was there yesterday & was not going to run any risk of being caught away from the vessel with both anchors down, and also said they did not care to get any seal at all, The following men refused, "G. Allen" "F. Janson" "H. Paulsen" "F. Hoffmann" "G. Endfield" "B. Worsel"

10³⁰ am hove up anchor & proceeded to sea.

noon fine weather, This is a 12 hour lay starting to sea
